NOVA PHARM

The NovaPharm dynamic universally sized range of magnetic supports, incorporate high strength magnets (each 1000 Gauss) placed strategically throughout the support to allow for maximum benefit to the injured area. Made from high quality Neoprene, this range provides firm, uniform compression without restricting movement. The magnetic field created by the high strength magnets can stimulate blood vessels & blood oxygen levels, speeding up the natural healing process.

Ankle Support - Neoprene & Magnetic

Advanced Woundcare

Mepore®

Easy-to-use self adhesive dressing with increased comfort and wear time. Mepore® is the world's first gentle, secure and long-lasting self adhesive dressing. Its absorption qualities makes Mepore a suitable dressing for the treatment of low to moderately exuding wounds such as surgical incisions, minor burns, cuts and abrasions. The protective layer and rounded corners enhance its ease of application.

- Good absorption and solvent-free adhesive
- Gentle and secure fixation, rounded corners and protective layer
- Increased comfort and wear time
- Flexible fabric that conforms well to body contours

Code	Size	Box Size	RRP

The no. 1 wound contact layer in the world. Mepitel® is a gentle, effective wound contact layer with the unique Safetac® technology. The open mesh design enables good transfer of exudate to a secondary dressing and easy delivery of topical treatments. Mepitel is clinically proven to heal scalds faster and with less pain and cost compared to silver sulfadiazine.

- Good transparency lets you instantly assess healing progress without removing the contact layer
- Does not leave residues and maintains functional qualities over time
- True undisturbed healing – can remain in place for up to 14 days.

Mepilex® Border

All-in-one foam dressing for pressure ulcers and other chronic and acute wounds. Mepilex® Border is an all-in-one foam dressing proven to minimize patient pain and trauma to the wound and surrounding skin. It has been designed to create an optimal healing environment for moderate to high exuding wounds such as pressure ulcers, leg and foot ulcers, traumatic wounds, and other secondary healing wounds.

Mepilex Border effectively absorbs and retains exudate and maintains a moist wound environment. The **Safetac®** layer seals the wound edges, preventing the exudate from leaking onto the surrounding skin which minimizes the risk for maceration. The Safetac layer ensures that the dressing can be changed without damaging the wound or surrounding skin. Mepilex Border is proven to help prevent pressure ulcers when used in addition with the standard pressure ulcers prevention protocols.

STEROPAD

Steroplast Steropad Low Adherent Absorbent Dressing

The Leading equivalent to Melolin® on the market is highly absorbent & **Double sided** for easy use.

When can I use them?

- To dress post-operative wounds, burns, cuts, grazes and abrasions, especially when you need a high level of absorbence, low adherence and cushioning and comfort
- The sterile absorbent pad draws moisture from the wound and provides padded protection, making it ideal for post-operative wounds and first aid for burns, lacerations and grazes. Steropad's perforated film surface prevents the pad from sticking to the wound, allowing it to be removed painlessly and without re-opening the wound.

Supplied in easy-to-use peel pouches, Steropad should be applied film side to the wound, before being be edged or taped into position.

Premium Microlife Accuracy Confirmed by Validations!

Microlife is a committee member of AAMI, CEN and ISO. Microlife's blood pressure monitors are developed together with leading hypertension doctors and clinically tested according to the protocols of the following international expert societies:

- British Hypertension Society (BHS) – Great Britain
- European Society for Hypertension (ESH) – Europe
- Association for the Advancement of Medical Instrumentation (AAMI) - United States
- German Hypertension Society – Germany
- A number of products are developed and recommended

according to the World Health Organisation (WHO) guidelines. Microlife's blood pressure monitors have achieved the highest attainable accuracy according to the above recognised standards.

AfB Technology

How Microlife's patented AfB technology works.

Microlife's AfB (Atrial Fibrillation) patented technology performs atrial fibrillation screening with the oscillometric method via easy blood pressure measurements. If atrial fibrillation is detected during blood pressure measurements, the AfB indicator is displayed, flashing at the end of the triple measurements.

Microlife AfB is recommended for screening or follow-up at home for patients with atrial fibrillation. Microlife AfB does not make a diagnosis, but provides important information for your Doctor, to investigate with ECG and diagnose atrial fibrillation.

MAM Technology.

- **Microlife Average Mode** - Superior reliability is achieved by the automatic data analysis of 3 successive measurements in less than 3 minutes.
- MAM Technology provides superior reliability for blood pressure monitoring both at home and in professional settings.
- The improvements are achieved by the automatic data analysis of three successive measurements.
- Superior reliability gives important information to doctors and ensures that treatment plans meet healthcare needs.

How do you determine your real blood pressure?

Doctors and Hypertension Societies recommend... to take at least two readings every time and average these measurements. Future readings

PAF technology.

The PAF technology (Pulse Arrhythmia detection) detects irregular heart beats during blood pressure measurement. If an irregular heart beat occurs during measurement, the PAF symbol is displayed.

As a rule this is not a cause for concern, however, if the symbol appears more frequently (e.g. several times per week on measurements performed daily) or if it suddenly appears more often than usual, we recommend you inform your doctor.

The device does not replace a cardiac examination, but serves to detect pulse irregularities at an early stage.

1-Second Ear Thermometer Technology

Microlife has developed a new 1-second IR Ear Thermometer that uses "real-time" technology. This new patented technology ensures superior accuracy. How does Microlife's Ear thermometer ensure superior performance?

- The heat sensor is located at the front of the measurement tip and thus closer to your body's heat source.
- A patented tip design prevents false readings from the effects of room temperature.
- Our high quality year sensor provides years of reliable readings.

Microlife® WatchBP® O3 (Out-Of-Office). Price: €1200 Ex-VAT

A highly affordable, clinically-validated ambulatory blood pressure measurement device.

Out-of-office measurements are highly recommended as an adjunct to office measurements by almost all hypertension organizations.

The WatchBP O3 removes many obstacles generally associated with out-of-office measurements.

In addition to providing a highly affordable ambulatory blood pressure measurement device (ABPM), the WatchBP O3 also includes an embedded 7-day home measurement mode that strictly follows ESH and AHA measurement guidelines and is suitable for pregnancy, preeclampsia and ESRD. The WatchBP O3 serves as a total out-of-office blood pressure measurement device, validated and recommended for clinical, home and 24-h blood pressure monitoring (<http://www.dableducational.org>).

The WatchBP O3 has sophisticated software, free of charge.

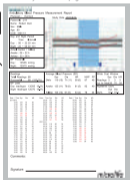

Device	24 hour Ambulatory BP Monitoring	Afib detection	PC Link	Night Time measurement	Pill-Button
WatchBP O3	•	•	•	•	•

iHealth View

Wireless Wrist Blood Pressure Monitor

Clinically tested and FDA approved. The iHealth View Wireless Wrist Blood Pressure Monitor gives you reliable readings, at home or on the go. View your blood pressure and pulse measurement instantly on the sleek display.

- Systolic, diastolic and heart rate (number of beats per minute)
- Detection of arrhythmia
- One-Click: Save all your measurements in you MyVitals app account
- Directs optimal arm position on the unit's display for precise results.
- Monitor blood pressure and pulse trends with intuitive charts and share data with your doctor in PDF or spreadsheet format

iHealth Lite

Wireless Body Analysis Scale

Elegant Design. Modern, minimalist style fits any decor. Our wireless BMI weight scale easily records your fitness progress. View your results on our mobile app.

- Measures weight and BMI *
- Tracks data, graphs and history on the iHealth MyVitals App
- Define goals to stay motivated
- Stores up to 200 measurements between synchronizations
- Share your medical data with you healthcare professional or family
- Bluetooth Sync, easy installation
- Secure and free data storage

iHealth Core

WiFi Connected Body Analysis Scale.

No matter whether we are young or old, our health should still be the first priority. Knowing your weight and body composition gives you the opportunity to make better decisions regarding your lifestyle habits. Your body won't always tell you directly what it needs, but iHealth Core can be the messenger.

- Measures weight, BMI *, lean, bone, muscle, water mass
- Body fat and visceral fat rating
- Daily caloric intake estimate
- Displays room temperature and humidity
- Tracks data, graphs and history on the iHealth MyVitals App
- Define goals to stay motivated
- Unlimited measurements
- Share your medical data with you healthcare professional or family
- Wi-Fi Sync, easy installation
- Secure and free data storage

iHealth Air

Wireless Pulse Oximeter

See how your activity affects your oxygen level and pulse pre and post workout!

Measures and instantly displays on the device & your smartphone:

- SpO2 : Concentration of oxygen in the blood
- Pulse : Number of heartbeats per minute
- PI : Perfusion Index (pulse strength) displayed on iMyVitals App
- Tracks data, graphs and history on the iHealth MyVitals App
- Bluetooth 4.0 wireless synchronization
- Share your medical data with you healthcare professional or family
- Charges by micro USB
- Secure and free data storage

iHealth Wave

A waterproof fitness device that measures swim, steps taken, distance traveled, calories burned and sleep quality.

Sleek, elegant design makes it the perfect accessory at the gym, office or out on the town. Wear it on your wrist or belt loop or in a soft band to sleep. Comes complete with two wristband colours, violet and black.

PILBOX

Tempo

Weekly pill dispenser: 7 independent compartments, each containing 1 daily dose. Easy to refill all of the compartments in one go. Simple compartment opening by pressing the button. Secure closure thanks to the protective strip which prevents any compartments inadvertently opening. Look through the transparent section on the bottom to check whether or not you took your medication. Just turn over the pill dispenser and check your week's treatment in a single glance.

Compact: you can carry it around with you easily or slip it into a pocket, bag, etc...

Code: PB-TEMPO -228
Weekly pill dispenser:

compartments
MOQ: 16
RRP: €5.99

LibertyV3

Innovation: Modular cases make it easy to leave home with a day's treatment. The best selling dispenser in the PILBOX line.

Characteristics: Weekly and modular dispenser: 7 modules and 4 compartments per module. Each module corresponds to one day's treatment. Patient form for important medical and therapeutic information

Particularities: Colour-coded module to indicate first day of treatment. Dispenser and modules are compact. Looks like a diary.

Assets: Exceptional quality and restrained design for patient discretion.

Code: PB-LIBERTY-813
Weekly and modular
dispenser: 7 modules and
4 compartments
MOQ: 6
RRP: €14.99

CUTTER

Accurate and easy to use: the pill is split by closing the box. There is no need to centre the pill that you want to split, the "pusher" directs it precisely to the centre of the cutting surface for a clean cut.

Safety: the blade is inaccessible, and hence does not come in contact with fingers. Helps to split pills while avoiding the risk of getting cut thanks to its safe system.

2 in 1: Splits and Stores. The unconsumed part can be kept in the storage compartment.

Small, light and safe, the Pilbox® Cutter can be kept in your pocket or in your bag. Its design in the form of a module makes it possible to integrate it in the Pilbox® Liberty case by positioning all the daily modules on the side.

Available in 4 colors: blue, orange, beige, green

Code: PB-CUTTER -280

Perspi-Guard
The Natural Treatment

**Stop Sweat.
Stop Odour.
Guaranteed.**

Perspi-Guard® Antiperspirant is a concentrated liquid antiperspirant that is so effective it requires only one application per week to prevent excessive sweating. Manufactured in the EU to full compliance, it uses the same active ingredients commonly found in antiperspirant products but is formulated and engineered for maximum effect with minimum irritation. All our products offer excellent levels of efficacy and quality and provide a broad range of customers with a choice of product relevant to their needs and requirements. Our range varies from uniquely effective maximum strength products formulated to treat Hyperhidrosis, to completely natural crystal deodorants that contain no additives or chemicals.

Perspi-Guard® Antiperspirant Treatment

Originally created to treat severe excessive sweating, **Hyperhidrosis**, on underarms, hands, feet and torso. It contains a trade secret formula that will provide unbeatable levels of protection from sweat and odour. Importantly, the product is mild enough for more mainstream use by non-sufferers of hyperhidrosis, for example by people who experience occasional issues with sweat in stressful work or social situations, meetings, weddings etc.

Perspi-Guard® is simple to use. Apply at night before bed, to clean dry skin. In the morning wash as normal and apply a scented body spray if you wish. When you start to feel the effects wearing off (around 5 days), re-apply that evening.

Perspi-Guard® Antiperspirant Treatment 30ml

PG-30ML - 599
Pack Size: 1
RRP: €10.99

Perspi-Guard® Antiperspirant Treatment 50ml

PG-50ML - 871
Pack Size: 1
RRP: €15.99

Perspi-Guard® Sensitive

Perspi-Guard® is a revolutionary and unique type of antiperspirant. It equals the performance of maximum strength antiperspirants without using traditional active ingredients such as Aluminium Chloride and Alcohol.

As a result, **Perspi-Guard Sensitive** is capable of treating excessive sweating in most areas of the body, including ultra-sensitive areas such as the face and groin.

Clinical tests compared the gel's efficacy to that of an antiperspirant containing a 20% Aluminium Chloride content.

Perspi-Guard® Sensitive is applied daily to the affected area(s) in the initial stages of application. After around 21 days optimum results should be seen (although for some results are instantaneous) and frequency of application can be reduced to every second day. For best results, apply at night.

Perspi-Guard® Sensitive

Aluminium & Alcohol Free Antiperspirant 50ml

PG-SENS - 1416
Pack Size: 1
RRP: €25.99

Perspi-Guard® Antibacterial Body Wash

Perspi-Guard® Antibacterial Body Wash has been formulated to cleanse the skin and eliminate body odours from commonly affected problem areas such as the underarms and feet. It is a treatment for body odours and not a standard shower gel. Problem body odour caused by sweating is known as **Bromhidrosis**. When we sweat, bacteria forms on the surface of the skin, creating enzymes. These enzymes react with air and break down lipids within the sweat, which in turn release the unpleasant odours associated with sweating (B.O or body odour). Standard cleansing agents cannot always remove these bacteria from the skin and this leaves a constant odour on the skin.

Perspi-Guard® Antibacterial Body Wash 200ml

PG-WASH - 22G

Pack Size: 1

RRP: €5.99

Perspi-Rock™

Perspi-Rock™ is a 100% natural crystal deodorant.

As such it is not intended to treat severe problem sweating, but provides excellent levels of protection for normal to moderate sweat levels.

Perspi-Rock™ covers the skin in a microscopic layer of mineral salt which provides a safe barrier between sweat and the skin's surface. This form of deodorant has been used for centuries and works to neutralise the body-odour causing bacteria produced when we sweat.

To apply, simply moisten the rock under a tap and apply directly to skin ensuring you cover the full armpit. Re-moisten if required. 12hr protection from light to moderate sweat and odour will be achieved.

Perspi-Rock™ Natural Deodorant Stone 60g

PG-DEO - 272

Pack Size: 1

RRP: €8.99

Perspi-Shield® Underarm Sweat Liners

Perspi-Shield® underarm liners are a modern, convenient version of the traditional dress shield. Applied directly to clothing, they form an absorbent barrier between sweat and clothing.

They also protect clothing from discolouration and staining caused by some antiperspirants, saving 66% on dry cleaning and replacing worn, sweat damaged garments.

Disposable, discreet and comfortable. All day protection and confidence with Perspi-Shield Ultra. Once applied the self-adhesive pads will hold in place and absorb moisture for up to 8 hours (depending on level of activity and amount of sweat produced). Each pair of shields are individually sealed so back up shields can easily be placed in a purse or pocket in case needed.

Perspi-Shield® Underarm Liners 10pk

PG-LINER - 625

Carriwell™

for your growing needs

Seamless Maternity Support Band in White.

70% of expectant mothers complain of back pain, you don't have to be one of them! The Carriwell Seamless Maternity Support Band is uniquely designed to be preventative and therapeutic. The band reduces the risk of muscle strain and helps to relieve existing discomfort or pain by gently lifting weight off the pelvis and supporting your lower back. It is discreet and warm and supports your back and tummy.

Relief: Warmth and support of the lower back by special fabric constructions which relieve pressure on the lower back and abdomen.

Support: As your tummy grows the maternity support band is designed to gently increase support.

Seamless Nursing Bra

The most comfortable nursing bra you will ever wear!

The Carriwell Seamless Nursing Bra is a soft and comfortable bra that moulds to your changing body shape. The easy one handed nursing clips exposes the entire breast whilst nursing, maximizing skin-to-skin contact between you and your baby.

Comfort: No irritating seams or stiff under-wire.

Flexibility: Complimentary bra extender adding to adjustability.

Support: The wide under band substitutes underwire i.e. extra support and "lifting" of the breasts.

Adjustable Organic Cotton Belly Binder

Naturally encourages your stomach to return to its original shape. After a long pregnancy, we all want to shrink our waist and belly as quickly as possible! The Carriwell organic cotton belly binder not only helps improve posture and supports your lower back; it tightens the tummy thereby reducing the risk of stretch marks and makes you look slimmer and more confident; immediately!

Support: Provides abdominal support and comfort after C-section.

Nursing Posture: Helps improve your posture whilst sitting, standing and especially while breast-feeding.

Flexibility: Gradually helps you reduce stretch marks by simply adjusting the belt to assist the tightening and firming of loose skin.

TERMS AND CONDITIONS OF SALE

Supply

All orders are accepted subject to:

- a. Credit limit control
- b. The availability of stock
- c. The prices and VAT rate ruling at time of despatch
- d. The minimum carriage paid order Ireland is €30 and below this carriage will be charged at €5.00.
- e. The risk (but not ownership) passing to the purchaser on delivery
- f. All sizes and dimensions being approximate.

Retention of Title

All goods supplied shall remain LMS property until payment in full of all sums owing to us have been achieved in accordance with these Terms and Conditions of Sale.

In default of payment by the purchaser when lawfully demanded, an employee of the Company or a duly authorised agent of the Company shall be entitled to enter the premises of the purchaser and recover those of the Company's goods that are available.

Payment

Payment terms are net 30 days from the invoice date.

Failure to pay within 90 days of the invoice date will result in the immediate withdrawal of credit facilities. No further deliveries will be made until the overdue amount is paid in full.

Debts unpaid within 90 days of the invoice date will be referred to our Solicitor. No further goods will be released until the outstanding debt is paid in full.

All transactions are subject to credit limit controls. The VAT is included within the credit limit.

Special Orders

Orders for items, which are not included in our ex stock assortment (i.e. they are not listed in our current Trade Price Lists), may be specially ordered on the purchaser's behalf direct ex Factory. The supply of such orders is, in addition to those terms stated above, subject to: -

- a. Confirmation in writing
- b. Availability ex Factory stock
- c. Delivery between 6-12 weeks but cannot be guaranteed unless specially advised.

NOTE: The return for credit of non-stock goods (excluding damaged or faulty goods) cannot be accepted.

Claims

Claims for undelivered, missing, damaged or faulty goods must be made in writing within 7 days of invoice date. The Company will not accept liability for consequential loss or loss of profit that may arise through late notification.

Returns of Goods

No goods will be accepted for return without prior authorisation of the LMS Sales Office.

The unauthorised return of goods risks refusal and the goods may be returned carriage forward, to the sender.

All goods being returned should be adequately packed and consigned at your risk. Any goods returned which are not received in a re-saleable condition because of damage in transit will not be credited.

Returns should be consigned to:
